1/2 in. THE INSIDER® Series Nonmetallic Sheathed Cable Connector

By RACO
Catalog # 4714

1/2 in. THE INSIDER® Nonmetallic Sheathed Cable Connector

Features

- Installs from inside the box: The unique design allows the installer to run the NMSC through the knockout to the desired length before snapping the connector into the knockout. No more need to cut an oversized hole for an old work box and connector installation
- UL listed for use with eccentric knockouts: THE INSIDER is the only NMSC Connector that has been U.L. tested for use with an eccentric knockout. No need to worry about the unused knockout pulling out
- Accepts single and dual runs of NMSC: THE INSIDER can accommodate one of the widest ranges of NMSC combinations in the industry. There's no need to stock another connector
- Snap-in design for ½ knockouts: THE INSIDER locks into the removed knockout securely.No need to waste time with installing locknuts"
- One piece nonmetallic construction: THE INSIDER resists corrosion and offers insulation protection. THE INSIDER is made of a tough engineered thermoplastic and conforms to the requirements of UL514B, UL514C and CSA. THE INSIDER can be used in exposed and concealed ceilings and walls

Specifications

Buy American Compliant	No
Certified Listed	cULus Listed
