Square D EZ Meter-Pak

'EZ Meter-Pak™ Meter Centers, the most reliable and versatile line of quality gangable metering equipment for multi-unit residential and commercial construction gets an update with PowerPact™ Circuit Breakers'

Square D EZ Meter-Pak Meter Centers Main Device Updates

Square D™ EZ Meter-Pak meter centers is the industry choice for multi-family and commercial metering applications. Our EZ Meter-Pak main breaker and main fuseable switches are now designed with Square D PowerPact molded case circuit breakers (MCCBs) and molded case switches. EZ Meter-Pak 600-800A mains use PowerPact M type, while 1000A mains use PowerPact P type.

EZ Meter-Pak industry leading advantages are extended with PowerPact mains

- Expandable electronics and connectivity for future requirements
- Interchange trip modules
- Optional feeder lugs configurations
- Visi-Tite bolts for cross bus connections
- EZ mounting channels included with each device
- Flexible and comprehensive short circuit current ratings through 100,000 Amps
- Interrupting Ratings with down stream Square D NQ™, QO™ and Homeline™ offers
