Home > Service Entrance > Pedestal - Metered

National Electric Code requires electrical distribution equipment to be rated as “Service Entrance”, wherever electrical power enters a building or other structure. Service entrance products are typically utilized on single-family residences and mobile homes. Midwest Electric offers a broad range of surface mount and pedestal units, factory assembled and wired. Pedestal units come standard with loop feed lugs to reduce installation time and labor expense. Service Entrance equipment is made of heavy, galvanized G-90 steel, preventing corrosion and fading.

Descriptors

Category	Pedestal - Metered

Specifications

Heads	1
Mounting	Galvanized Steel Earth Burial Post
Amps	200.0 A
Metering	Ringless
Receptacles	None
Feed	Underground
Installed Breaker	None
Additional Breaker Spaces Per Head	5
Wiring Configuration	Series
AIC	22,000
Circuit Protection	Provision for Field Installation
Hub Provision	No
Load Center	LCBS LCTNL
Loop Feed	Yes
Phase	1
Unit Weight	67.0 lb
Volts	120/240
