inREACH Medical Cord Reels

Cord reels with Hospital Grade plugs and receptacles provide safe, convenient, and reliable power in demanding medical applications. All-white construction complies with sanitary practices by making contamination more visible and easier to clean. Our plenum-rated enclosure is the first of its kind, allowing you to securely mount cord reels in drop ceilings while isolating it from the plenum space.

- Cast aluminum reel housing withstands corrosive environments
- Hospital Grade, tamper-resistant receptacles with illuminated LED to clearly indicate available power
- UL 2416 Listed plenum rated steel enclosure complies with NEC300.22
