Product Specifications

3/8" x 6" Phillips/Slotted Mushroom Head Toggle Bolt

Part Number TBC386
UPC 781002858195

Toggle Bolts, or butterfly anchors, are a light to medium duty anchor intended to be used in hollow block, wallboard, plaster, plywood, and other hollow base materials. Once fully opened, Toggle Bolts significantly expand the surface area making contact with the back of the hollow wall. This spreads out the load of the fastened object, increasing the weight that can be secured. The maximum weight a Toggle Bolt supports, depends on the size of the bolt and the thickness of the substrate. To accommodate the Toggle, installation requires a relatively large hole compared to other types of hollow wall anchors.

Physical Characteristics

Anchor Type	Toggle Bolt
Material	Carbon Steel

Packaging Details

Standard Qty	25
Master Qty	100
Price Per	100
Package Weight	5.60

Performance Data

Applications	Hollow Block, Wallboard, Plaster, Plywood and other Hollow Base Materials
Special Features	Adjustable for Various Thicknesses, Contractor Oriented Design, Easy to Use, Wings Open to Distribute Load Evenly
