Braided Sleeving, Split Wrap, 2" Dia, PET, Black, 50 ft/bulk reel

Center-slit overlapping design allows quick and easy access to the wires and cables for future maintenance or inspection without disassembly.

Flexible material allows it to easily wrap around a variety of component shapes and sizes, making it easier to use than slit-loom tubing or spiral-wrap materials.

A unique weave pattern provides increased coverage and greater resistance to abrasion, dust and debris.

Overlapping design enhances flexibility, allowing it to shift and bend without exposing wire and cables.

| Product Description | A lateral split semi-rigid braided sleeving configuration used when ease of installation and repeat access to wire bundle is required. The lateral split allows the sleeving to open and accommodate a variety of bundling requirements. The 25% edge overlap rolls back over connectors and splices without exposing the bundled wires. |
