Divider panel for module plates for TS – TS 8609.100

created: 24.05.2018 build on www.rittal.com/us-en

Product description

Description:	With cut-outs for the installation of module plates for connectors or for cable entry, and also for the entry of busbar systems and other installed equipment. All-round, double edging for stability and to accommodate the seal. The symmetry of the enclosure frame means divider panels of the appropriate dimensions can also be fitted at the rear.
Benefits:	More options: The cut-outs of a divider panel are individually equipped with module plates for 16-pole or 24-pole connectors, with module plates for cable entry and with solid module plates. Faster assembly: Usually only some of the total number of connector cut-outs are used. Thanks to the new divider panel technique, the cut-outs do not need to be covered individually. The solid module plate is used instead. The benefit: Fewer plates, fewer screws, less assembly work.
Applications:	Notches in the corners and half-way up the sides permit the use of angular baying brackets and baying brackets, even with a divider panel fitted.
Material:	Carbon steel, 2.0 mm
Surface finish:	Zinc-plated
Supply includes:	Assembly components and multi-tooth screws M5 x 12 mm for mounting the module plates.

Product features

Suitable for:	Enclosure type: TS 8 Height: 1800 mm (71 ″) Depth: 500 mm (20 ″)
Installation options:	Mounted on the outer mounting level The inner level remains free for further expansion

Cable entry:	Number of cut-outs: 9
Packaging unit:	1 pc(s).
Weight/packaging unit:	7.05 kg (15.5 lb.)
EAN:	4028177211728
Customs tariff number:	94039010
ETIM 6.0:	EC002525
ETIM 5.0:	EC002525
