1kV Megohmmeter/Insulation Tester

5882A 1kV Megohmmeter/Insulation Tester

Cat No: 5882A

UPC No: 783310071549

Description

- Calculations (automatic)
- Potential Index and Dielectric Absorption Ratios
- Tests Continuity, Resistance and Frequency Measurements
- Programmable Alarms
- Insulation Test, Resistance, Continuity
- Hazardous Voltage Alert (Icon) if voltage is >70 volts 5.) On Board Timer, +1/- 1 sec.
- Delta Reading "ΔREL"
- Data hold with 300 Entry Memory
- Standby Mode (automatic),saves battery power
- Hand Held, Compact Light Weight Form
- Intuitive Layout with Rotary Function Selector and Large Test Button
- Molded in Magnetic Mount for convenient hands-free measurements
- Limited Life Time Warranty

Specifications

- Accessories included :
  - Test Lead Kit: Alligator Clips and Test Probes
  - Carrying Case with ShoulderStrap.
  - Manual
  - Batteries
- Application :
  - Insulation Testing
  - Cable and Rotary Equipment
- Automatic Discharge : Yes [on completion of insulation test]
- Continuity Range : <100&#8486
- Display :
  -
  - LCD: Large/ Bright, easy toread
  - Analog Bar Graph and Digital
- Measurement Category : 1kV
- Range : 10k&#8486 to 200G&#8486
- Replacement Part :
  -
  - 5882A Test Lead Kit, 1kV Megohmmeter
  - 5882A Carrying Case, 1kV Megohmmeter
- Resistance Range : 0&#8486 to 1000k&#8486
- Test Voltage : 50V, 100V, 250V, 500V, 1kV
- Type : Hand Held
- Voltage Rating : CAT IV, 600V
